

Sun June 1

Dear Mom & Dad,

We got home Friday after being gone for two weeks. Miami was the first stop where we stayed with Murray Epstein over the weekend. I got a little sunburned sitting by his pool, but we had a good time. The reason for going to San Diego was to participate in some tests using a small boat about a mile out in the ocean. I didn't go out on Thursday, but heard that several people were seasick. This made me very nervous Thursday night, but using Dramamine and keeping my stomach full worked fine. The mistake many people make is to go without eating before the trip.

Last weekend we staying in L.A. with Mike & Lin DuBois. They have a new house in Canoga Park.

---

Mike foolishly neglected to put in a pool when the house was being built but just sitting in the sun was enjoyable. We went out one evening with Murray who was in town and with Alan Stephens whom I bought the camera for.

Tuesday and Wednesday we were in Santa Barbara on business and Thursday back in San Diego. Vickie enjoyed the trip and went on several very long walks.

Summer has arrived here; it is quite warm and humid. The overnight low temperatures are above the highs in California. We like the warm weather and played tennis quite a while this afternoon. We barbequed steaks at the clubhouse with baked potatoes <sup>being</sup> provided by the management.

Hope you enjoyed the weekend at the cabin and that we can see you before too long - Jim & Vickie
